

Mary-Anne DiBlasio, Co-Founder, Reiki Master/Teacher

Mary-Anne has retired from the regular 9-5 to dedicate her full time efforts towards her passion, her Wellness Center started back in 1999. A Sales & Marketing Professional by trade, she has served many communities, from manufacturing to the medical field. She started her spiritual journey in her late 20's and it has truly blossomed from there. She was diagnosed with severe endometriosis, explored alternative options for healing, and the rest, as they say, is history. She knew at that time her life would be dedicated to helping others. Showing others what she had been shown. Letting them know, there are more natural options for healing.

John Richard Schelb III, Co-Founder, Reiki Master/Teacher

John is a Mechanical Design Engineer by trade in the Implantable Device Design & Development Field, however, had started his spiritual journey quite some time ago... at the age of two. Ever since John can remember, he has been guided to do the right things. He has always been told if he was true to himself and lived from the heart, he would always be taken care of, and that simple fact is still carried out to this day. John is a Renaissance Soul, dabbling in anything from building houses to mental health counseling at a local medical facility here in Western Mass. John has a way about himself that allows him to truly connect with people. He has been given a gift and we are all fortunate enough to have him available for sessions at the Center.
